Symphony Hall is one of New Jersey's most valuable cultural assets. Its large audience capacity, the beauty of its interior, and its superb acoustics make it irreplaceable as a facility for the performance of dance, music and theater.

This magnificent theater, built in 1925, has been restored to its original grandeur and further improvements are underway. Today, the theater sparkles with its glittering 3,000 crystal chandelier and its architectural details, a treasure from a bygone era.

This historic landmark theater, which is easily accessible by public transportation, and has ample parking, makes it the natural choice for ballet, concert and theater lovers throughout the New Jersey metropolitan area.
